Our recipe for visibility

1. **Know** your rights w.r.t. copyright and keep as many as you can. [Timothy K. Armstrong: An Introduction to Publication Agreements for Authors](#) .
2. **Work** with [KUSW*](#): a digital repository curates your work, makes it openly available, and it tracks usage.
3. **Register** with [ORCID](#) and claim your electronically visible research, differentiate it from others' publications with the same or similar names.
4. **Claim** an [Academia.edu](#) page and link there to your papers in KUSW. Academia also connects you to the global community of scholars in your areas of interest.
5. **Claim and make public** your [GoogleScholar](#) page. Edit it to weed out duplicates and works mistakenly attributed to you. Keep track of your h -index (the number h of your works cited h or more times).
